<http://mnsymposium2010.eventbrite.com/>

Presented by:

The American Liver Foundation- Great Lakes Division
And The Minnesota Department of Health

Purpose: This symposium will provide a forum for discussing the viral hepatitis prevention, diagnosis, management, and treatment needs of Minnesotans. The agenda features nationally known hepatitis experts, epidemiologists, advocates from programs that have made significant inroads in addressing hepatitis, and patients who will share their experiences. This symposium will bring together clinical and community program partners to encourage and reinforce principles of integration and improvements in the continuum of care.

Audience: Health care professionals, including physicians, physician assistants, nurse practitioners, and nurses, Substance abuse and mental health treatment staff, Individuals working with HIV/AIDS-related community-based organizations, corrections staff, those working with veterans or the homeless, hepatitis advocates
